Art Unit: 1763

1. Claims 1-13, and 21-27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

-In line 2 of claim 1, the usage of the terms "below", and "beneath" is redundant, and confusing.;

-In line 15 of claim 1, the phrase "said selected depth" lacks proper antecedent basis. (i.e.-What selected depth is applicant referring to?);

-The wording used in lines 14-18 of claim 1 is written a very confusing manner, and should be reworded.;

-In claims 4, and 24, it is unclear to the examiner what the difference is between providing a marking "at the semiconductor wafer" versus "on the semiconductor wafer".;

- In claims 3, and 23, the phrase "rectangularly patterned mask" is confusing. (i.e.-What is meant by this phrase? Is the mask shaped in a rectangle? Are there rectangular openings in the mask? etc.);

- The wording used in claim 21 is vague, and indefinite. (i.e.- It is unclear how the main structures are arranged on the semiconductor substrate. Aren't the main structures in the semiconductor wafer, and not on it as is claimed by the applicant?); and

-The last 3 lines of claim 21 are written in a very confusing manner, and should be reworded. (i.e.-How are sections of the semiconductor substrate, which are

located below secondary structures made available for the formation of extended main structures?)

2. A substitute specification excluding the claims is required pursuant to 37 CFR 1.125(a) because the amendments to the specification which are purposed by the applicant are too numerous.

A substitute specification must not contain new matter. The substitute specification must be submitted with markings showing all the changes relative to the immediate prior version of the specification of record. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter must be shown by strike-through except that double brackets placed before and after the deleted characters may be used to show deletion of five or fewer consecutive characters. The text of any deleted subject matter must be shown by being placed within double brackets if strike-through cannot be easily perceived. An accompanying clean version (without markings) and a statement that the substitute specification contains no new matter must also be supplied. Numbering the paragraphs of the specification of record is not considered a change that must be shown.

3. Applicant's arguments with respect to claims of record have been considered but are moot in view of the new ground(s) of rejection.

Art Unit: 1763

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

5. Any inquiry concerning this communication should be directed to examiner

George A. Goudreau at telephone number (571)-272-1434.
